People Flow™

Enter a new era of digitally enabled people flow

In an increasingly digitalized world, everything is connected, and elevators are no exception. The KONE MonoSpace® DX redefines the elevator experience with connectivity for improved people flow and a completely new and inspiring user experience.

DX stands for digital experience, because with the KONE MonoSpace DX you can create an experience that really connects – on every level.

Powered by the compact, energy-efficient KONE EcoDisc® hoisting motor, the KONE

MonoSpace DX saves valuable space in your building by completely removing the need for a machine room.

We help you accelerate construction and lower construction costs with productivity enhancing construction time use solutions that help building projects finish ahead of schedule.

Whether you're developing a new building or replacing the elevator equipment in an existing one, we have a solution that fits. Contact your local KONE sales representative to find out more.

- 01 Get more value out of every square meter with connectivity**
 By adding connectivity to your elevators you make them smarter and more desirable – helping you get more value out of every square meter of your building. New services enabled by the KONE digital platform and KONE Partner Ecosystem, as well as application programming interfaces (APIs), make everyday life even easier and more convenient for everyone.
- 02 Accelerate construction with improved productivity**
 With our new improved construction time solutions and processes, we can optimize your productivity and accelerate the completion of your building projects by several weeks or even months. We make people and material flows on-site as fast and efficient as possible.
- 03 Differentiate with a redefined user experience for tenants and visitors**
 Redefine the elevator user experience, bring your vision to life, and inspire users with our new car interior designs, functional and durable materials, direct and indirect lighting, infotainment features, and user-friendly signalization.
- 04 Partner for smart and sustainable buildings**
 Make the right decisions first time and plan your elevator down to the very last detail with our next-generation planning tools. Take advantage of our expert support and sustainable materials and technologies to help you achieve green building certifications and ensure compliance with safety codes and standards.

Key specifications

 Connected	 Load 2,500 kg	 A-Class energy efficient ISO 25745 rating
 Max. travel 120 m	 Max. floors 48	 Speed 3 m/s
 Max. persons 33	 Max. group size 6	 Regenerative drive technology

Future-proof your building with connectivity

The KONE MonoSpace DX takes our market-leading eco-efficient elevators and adds connectivity to make them smarter and more desirable than ever before.

Connected people flow means your elevator solution never stands still and your building gets better with every update.

To bring you peace of mind in the digital world, cybersecurity and privacy are designed into our digital services and connections. Monitoring our digital environments around the clock helps us take proper care of them for you now and in the future.

Easy to upgrade

Connectivity gives you the possibility to upgrade in the future as your needs change by adding new connected services and features whenever you need them.

Improve energy-efficiency

Save energy and cut your building's carbon footprint with our lighting and standby solutions.

Upgrade performance and reliability

By refreshing your elevator's mechanical and electrical components you can significantly improve its performance and reliability.

Get more value out of every square meter with connectivity

In an increasingly connected world, people expect more from the spaces where they live and work. Smart solutions based on connected digital technologies not only help buildings attract a premium price, they also help to speed up the sales or leasing process.

Connectivity enables services such as integrating elevator status data with the building's management system for effortless and more holistic monitoring and troubleshooting, or allowing people to make elevator calls using their smartphones or via other devices such as in-home intercoms.

Add innovative services that improve convenience and comfort

KONE MonoSpace DX utilizes the KONE digital platform and secure APIs to connect elevators with a whole new suite of solutions and services that make life easier and more convenient for users.

Take advantage of digital solutions continuously developed by KONE like KONE 24/7 Connected Services for peace of mind throughout the elevator life cycle.

With KONE APIs you also have the freedom to develop your own smart building solutions, allowing you to further customize the elevator experience to meet the needs of your building and its users.

You can also benefit from solutions and services developed by the growing number of partners of the KONE Partner Ecosystem, which develops solutions that can be integrated with KONE DX Class elevators.

YOUR PARTNER IN CONSTRUCTION LOGISTICS

As smooth as construction can be

What if you could shorten your construction schedule by weeks—or even months—reduce scheduling risks, and improve safety for your workers? KONE's Construction Logistics Services can help your project get delivered as smoothly as possible by making it easier, safer and faster to move people and materials.

Get more time back with elevators for construction

Accelerate your schedule and improve logistics by moving site workers and materials around the building more efficiently with Construction Time Use elevators

Start moving earlier with KONE JumpLift

Gain early access to the building's elevator shaft so workers, tools, and materials reach their destination faster—saving hours each day and getting your building done sooner

Keep on going with 24/7 Predictive Maintenance

Increase elevator availability by fixing potential problems before they happen with 24/7 Predictive Maintenance—maximizing uptime so you can achieve more each day

Differentiate with a redefined user experience for tenants and visitors

With KONE MonoSpace DX Class elevators you can harness the power of digitalization to take the elevator journey far beyond the ordinary. A whole new range of car designs, material options, and lighting and signalization choices – as well as customizable digital infotainment solutions and health and well-being solutions – adds value to your building.

Anti-stain, anti-fingerprint coating: This specialized coating helps keep colored stainless steel elevator materials looking as good as new by preventing staining and making fingerprints less visible.

Functional, durable materials

Design a car interior that's easier than ever to clean, maintain, and keep looking its best with our new range of innovative materials, including finishes with anti-fingerprint properties.*

Human, insight-driven design

People are the lifeblood of buildings, so our design philosophy is based on a human insight-driven approach that takes the whole elevator experience into account to make sure it connects on every level – from the visual to the emotional, and everything in between.

Health and well-being solutions

KONE's people flow expertise, together with a range of health and well-being solutions, help to increase safety and contribute to a healthier building environment.

Inspiring infotainment solutions

From crisp, clear, easily updatable in-car infotainment screens to fully customizable media content, KONE DX Class elevators offer a host of different ways to inform, entertain, and inspire passengers.

Plan for success with KONE as your partner

Now more than ever, it's vital we work together to build smart, sustainable, and adaptable buildings that last. Build greener and make sure your project is on track to meet industry codes and standards with our next-generation planning tools, safe and sustainable materials, and expert support.

Build greener

KONE solutions and expertise can make all the difference when you're aiming to achieve green building certifications and credits for schemes like BREEAM, LEED, and Green Mark.

Build to standards

The KONE MonoSpace DX complies with all relevant industry codes and standards. Talk to your local KONE sales representative about how we can support you with issues such as accessibility, vandal-resistance, and fire code compliance.

Build with a partner

You benefit from comprehensive support throughout your building's lifecycle, from expert planning advice to flexible maintenance and modernization solutions and services.

Design online with KONE Studio

Explore different elevator options and configurations online before starting a new project. Make the right design choices, use the correct dimensions and get accurate planning specifications.

Design with 3D visuals

Find the look you love with a simple, easy-to-use and free online design tool.

Use exact building specifications

Optimize planning with accurate and always up-to-date product data.

Save project details

Test and finalize your custom designs, then make changes later if needed.

Export CAD and BIM drawings

Identify potential issues and plan ahead to avoid surprises during construction.
